Operation Hour: 6:00 AM – 6:30 PM

Ignition Type: Hand Ignition

Prescribed Burn Unit:
Anderson Flat RX

Complexity: Moderate

Summary: October 21, 2022, the San Carlos Forest Resources Program, Wildland Prescribed Fire personnel will continue their Prescribed Burn operations in the Anderson Flat location, and will be Implementing a Prescribed Broadcast Burn. To accomplish a total 1,349 acres. (See Map).

The overall goal is to maintain a healthy ecosystem among our Forest Woodlands. The Anderson Flat Broadcast Prescribed Burn will involve eliminating hazardous fuels, including heavy brush, and overgrowth of grassland vegetation. The prescribed burn perimeter has constructed fire handline, trail/road systems, and natural barriers, which will minimize rapid-fire spread or potential movement. Updates will follow along with the dates.

No road closures or restrictions apply, prescribed burn signs will remain set up along the roadway and at intersections to notify the public of Prescribed Burn activity, and Wildfire personnel that continue to monitor and patrol the roads/trail systems adjacent to the Anderson Flat Broadcast Prescribed Burn Units.

Please drive with caution if traveling in the vicinity of the prescribed burn. Firefighters and Public safety are always our number one priority. The Operational shift, may vary due to weather and resource needs.

Updates and announcements will be posted on the San Carlos Forestry Management Facebook page at www.facebook.com/SCATFORESTRY and will be broadcasted on the local 91.1 KYAY Radio station.
